Brunelle

Kitzbühel – AT – 2018

Length	1.173 m	Vehicles	44
Height difference	387 m	Power (kW)	441 kW
Throughput per hour	1.800	Towers	12

Special highlights of the new “Brunelle” 6-seater chairlift include the Premium chairs with seat heating, a weather protection bubble, and genuine leather covers. The journey is now also much faster – travel time to the summit area is halved from eight minutes to just four.

The modern technology integrated in the LEITNER DirectDrive not only ensures energy savings and maintenance efficiency, but also low noise levels. Another highlight is the LEITNER lateral damping system that reduces the susceptibility to wind to an absolute minimum in the attachment area of the Premium chairs on the “Brunelle” 6-seater chairlift.
