

CD6C

Hornbahn 2000

Alpbach – AT – 2022

Length	1.123 m	Vehicles	61
Height difference	391 m	Power (kW)	662 kW
Throughput per hour	2.600	Towers	11

The new CD6C Hornbahn 2000 6-seater chairlift has replaced its 4-seater predecessor at Ski Juwel Alpbachtal Wildschönau. This modern, detachable chairlift carries up to 2600 people over a distance of nearly 1100 meters, with weather protection, to the Top of Alpbachtal station in under four minutes. High-end equipment, including LEITNER DirectDrive, heated seats, and weather bubbles, means the focus in Alpbachtal is very much on quality rather than quantity.

This replacement investment was not aimed at expansion, but on improving the quality of the mountain experience. That includes the new Top of Alpbachtal attraction, which can be reached on the Hornbahn 2000. The new top station, with its observation tower, platform and modern premises, has become a new focal point for the entire region.
