Baby Express

Andalo (TN) – IT – 2023

Length	415 m	Vehicles	21
Height difference	113 m	Power (kW)	250 kW
Throughput per hour	2.400	Towers	5

The “Baby Express” 10-passenger gondola lift at the Andalo ski resort in Trentino runs up a beginner’s slope and is designed specially for ski schools to use. This ropeway is just 414 meters long, making it is the shortest and most compact gondola lift LEITNER has ever built.

It serves a large area of easy slopes in the popular family resort. This comfortable new ropeway replaces a fixed-grip 2-seater chairlift and carries 1,800 passengers per hour at a speed of 4 m/s.
