Sodlisia

COLFOSCO (BZ) – IT – 2021

Length	784 m	Vehicles	46
Height difference	101 m	Power (kW)	612 kW
Throughput per hour	3.600	Towers	8

In Colfosco in Val Gardena, South Tyrol, a state-of-the-art 8-seater chairlift has replaced a 4-seater chairlift that was 30 years old. The “Sodlisia” ropeway, which is powered by a DirectDrive, has lockable safety bars, premium upholstery, and weather protection bubbles and significantly increases travel comfort in the ski area, which is part of the Sella Ronda.

A new, premium, Pininfarina-designed station was built up on the mountain, while the bottom station of the system is integrated into a newly constructed building that includes underground garaging. With a length of 785 meters, the 8-seater chairlift can carry up to 3,600 people per hour.
