

## SURFACE LIFTS

### Reliable and ideal for beginner slopes

LEITNER surface lifts are ropeway systems specifically used on beginner slopes or to cross shorter segments. Their reliability is based on decades of experience collected during the construction of 2,500 systems around the world. As a worldwide supplier, LEITNER always follows the strict European safety regulations. This is why surface lift technology has been continuously developed in recent years and been improved with refined details.

#### Technical data:

Transport capacity	up to 1,400 people/h
Speed	up to 3.5 m/s
Attachments	for 1 or 2 people
