Ganzer X-Press

Neukirchen am Großvenediger – AT – 2017

Length	1.509 m	Vehicles	50
Height difference	402 m	Power (kW)	529 kW
Throughput per hour	2.840	Towers	10

LEITNER ropeways and the Salzburg ski resort Wildkogel-Arena already have a long tradition of working together. For example, the Pfeifferköpflbahn chairlift was the first in Austria to be equipped with the LEITNER control system.

The Ganzer X-press 10-passenger gondola lift adds substantial capacity in the heart of the ski resort. That is particularly important as the ski lessons are held there. As a result, the project with a transport capacity of 2,840 passengers per hour will put an end to the waiting times guests previously had to endure.
