Schneehüenerstock-Express

Andermatt – CH – 2018

Length	1.710 m	Vehicles	51
Height difference	548 m	Power (kW)	740 kW
Throughput per hour	2.400	Towers	14

In Switzerland, the “Schneehüenerstock-Express” 10-passenger gondola lift in the SkiArena Andermatt-Sedrun was established as an important link between Andermatt and Sedrun. Previously, you could only travel by train with the “Matterhorn Gotthard Bahn” from Sedrun back to Andermatt.

Now, this is possible by gondola lift or by skiing on the new slopes. The new ropeway is thus the convenient and fast “return option” from the Oberalp Pass to the Schneehüenerstock.
