Snöberget Direkt

Romme Alpin – SE – 2022

Length	2.427 m
Height difference	266 m
Throughput per hour	3.200
Vehicles	126
Power (kW)	529 kW
Towers	19

LEITNER built a 6-seater chairlift at the Romme Alpin ski resort near Stockholm. It has boosted capacity and comfort, especially for the numerous weekend visitors who come from the city. This ropeway, powered by a LEITNER DirectDrive, connects the two farthest locations at the resort, making it Romme Alpin's longest aerial lift.

Covering a length of 2427 m, just before its highest point, the ropeway crosses the Nordexpress 6-seater chairlift built by LEITNER in 2012. LEITNER's CD6 Snöberget Direkt is its sixth ropeway at this central Swedish ski area.
