SCHRÖDELSTEINBAHN

Lenggries – DE – 2019

Length	813 m	Vehicles	41
Height difference	299 m	Power (kW)	441 kW
Throughput per hour	2	Towers	10

After Brauneck- und Wallbergbahnen GmbH's positive experiences with the identical "Milchhäuslexpress" ropeway, the management chose the tried and trusted provider again when modernizing the ropeway: the new "Schrödelsteinbahn" at Jaudenhang in the popular family ski resort is equipped with bubbles, individual footrests and seat heating.

Compared with the ropeway's predecessor "Finstermünz", passenger capacity has increased from 650 to 2,400 winter sports enthusiasts per hour. Alongside its eco-friendliness thanks to LEITNER's particularly energy-efficient DirectDrive technology, the implementation particularly focused on child-friendly functions. For example, the ropeway has automatic locking safety bars and a boarding conveyor belt with an automatic elevating platform for easier access.
