St. Valentin - Schöneben

Graun im Vinschgau - Curon Venosta – IT – 2018

Length	4.324 m	Vehicles	73
Height difference	421 m	Power (kW)	949 kW
Throughput per hour	1.600	Towers	24

Ideally located on the borders with Austria and Switzerland, the South Tyrolean ski resorts of Haideralm and Schöneben were joined up with one another. Thanks to the new gondola lift they achieved a significant expansion to the range of services in terms of quality and quantity and, at the same time, allowing the area to be used all year round.

The "GD10 St. Valentin-Schöneben" runs from the village of San Valentino via a middle station to the Belpiano ski area. A special feature of the new 10-passenger gondola lift is its length: at 4.3 kilometers, the system is one of the longest of its kind.
